

Eli Schragenheim – Prof. Profile

Eli Schragenheim international activity combines consultancy, management education, software development for education and application of the supply chain, public speaking and writing books on the front knowledge in management thinking.

Since he has joined Dr. Eliyahu M. Goldratt in 1985, Eli Schragenheim has taught, spoke at conferences and consulted all over the globe, including the US, Canada, Britain, Russia, Brazil, Colombia, Germany, Italy, Belgium, South Africa, Australia, India, China and Japan.

Eli Schragenheim is also known for his own software simulators and management games designed to experience the thinking and potential of the Theory of Constraints (TOC) in complex environments.

Eli Schragenheim was a partner in the A.Y. Goldratt Institute, after that he was a director in The Goldratt Schools. Now he is managing his international activity as the president of Elyakim Management Systems (1992) Ltd., a company registered in Israel. He is also a board member of TOCICO – the TOC International Certificate Organization, a non-profit organization that was created by Dr. Goldratt to spread the TOC knowledge in the world and unite the TOC experts to make TOC the main way to manage organizations.

He is the author of several books on various aspects of management.

His first book *Management Dilemmas* (1998) showed a variety of problematic situation in management and the rigorous analysis to pinpoint the right solution.

Next he collaborated with William H. Dettmer in writing *Manufacturing at Warp Speed*. In this book the new concept of Simplified-DBR, now a key concept in production planning according to TOC was introduced.

He also collaborated with Carol A. Ptak on *ERP, Tools, Techniques, and Applications for Integrating the Supply Chain*, and with Dr. Goldratt and Carol Ptak on *Necessary But Not Sufficient*.

In 2009 his new book *Supply Chain Management at Warp Speed*, with William H. Dettmer and Wayne Patterson was published.

The new book contains much of the new developments of TOC in operations in the last 10 years. He also contributed two chapters for the Theory of Constraints Handbook, edited by Cox and Schleier published in 2010 by McGraw-Hill.

Mr. Schragenheim holds an MBA from Tel-Aviv University and B.Sc. in Mathematics and Physics from the Hebrew University in Jerusalem. In between his formal studies he was a TV director for almost 10 years.

Eli Schragenheim is a citizen of Israel.
