OPERATIONAL REQUIREMENTS OF THE AIS SYSTEM

In accordance with SOLAS Chapter V Reg. 19/2.4: "All Ships of 300 GT or above and all passenger ships on international voyage ", must be equipped with AIS system as from 1st July 2004. Also, all ships in the above category, must maintain continuous AIS operation at all times.

The AIS system shall conform to the IMO operational requirements and performance standards.

Non compliance may result in refusing or delaying entrance into Israeli Territorial Waters, and/or PSC detention until AIS system is fully operational.
